

Alpharetta Public Safety Foundation Receives Donation from Windward Business Association

29 June 2007 *For immediate release*

The Alpharetta Public Safety Foundation announced today that they have received a generous donation from the Windward Business Association of \$25,000.

The Alpharetta Public Safety Foundation is a not-for-profit organization and is composed of local business leaders who are volunteering their time to facilitate and promote cooperation between the Alpharetta Department of Public Safety and the business leaders within Alpharetta. Their goal is to fund programs that support local businesses by supplementing initiatives by the Department of Public Safety that is currently outside their normal operating budget.

Gary Cann, Chairman of the Alpharetta Public Safety Foundation said, "The support of the Windward Business Association goes a long way to helping us fund high technology projects that will directly support the security efforts of the Department of Public Safety in the Windward and Deerfield corridor. In that corridor are many of the premier businesses within the city. We are very pleased to have a strong relationship with the Windward Business Association, and that their leaders recognize the benefits of working together to keep Alpharetta a safe place to work, live and play!"

According to Gary George, Director of Public Safety, "This donation is an extension of the cooperative efforts that our police officers and fire fighters have forged with our business community that is now enhanced by the Public Safety Foundation. We have always worked closely with the Windward Business Association members and thank them for supporting the Foundation's efforts."

"Some of the Windward Business Association leaders sit on the Public Safety Foundation Business Advisory Council, and are actively involved in helping guide the Foundation Board of Directors as we prioritize the projects we choose to support." said Cann. "We continue to encourage leading executives and associations to become engaged with the Foundation as has the WBA."
